## You're More Than A Number

During the admission process we look at your whole story: your academic history, resume, work/life experiences, and responses to reflective essay questions that aim to understand where you've been and where you want to go.

## Finish Faster Using Transfer Credit

You deserve credit for what you already know, and we want to give you up to 90 credits toward your bachelor's degree for that knowledge. That's why we review transcripts from other colleges you've attended, as well as documentation for any professional certifications, college-equivalent trainings, military or law enforcement trainings, and more. Do you have specific skills or knowledge, but no formal documentation? You may be eligible to earn credits through our C-KET program, please speak to an advisor for more details.

## truED: A Partnership For Success

You have multiple responsibilities pulling you in different directions: you want to grow in your career, you want to spend time with family and friends, and you don't want to go deep into debt. That's why we created truED, a unique program for select organizations to offer their employees, like you, access to a high-quality online education, affordable tuition, and flexibility to study when the time is right for them.
