

## truED

Learning at Work

### Significant Tuition Savings

truED® is an exclusive tuition benefit from Champlain College Online, offering a preferred tuition rate—including graduate tuition—for you and eligible family members.

### High Quality Education, 100% Online

You want a quality education, with the flexibility an online program offers. Whether on the go or in your home, our virtual classrooms give you 24/7 access to your assignments, classmates and instructors.

### Supporting You Every Step of the Way

You'll experience a host of resources—academic advisors, online tutors, faculty, library collections, and tech support—from the first day of your classes and throughout your student journey.

## You're More Than A Number

During the admission process we look at your whole story: your academic history, resume, work/life experiences, and responses to reflective essay questions that aim to understand where you've been and where you want to go.

## Finish Faster Using Transfer Credit

You deserve credit for what you already know, and we want to give you up to 90 credits toward your bachelor's degree for that knowledge. That's why we review transcripts from other colleges you've attended, as well as documentation for professional certifications, college-equivalent trainings, military or law enforcement trainings and more. Do you have specific skills or knowledge but no formal documentation? You may be eligible to earn credits for that, please speak with an advisor for details.

## truED: Expect More, Spend Less

You have multiple responsibilities pulling you in different directions: you want to grow in your career, but you want to spend time with family and friends, and you don't want to go deep into debt. That's why we created truED, a unique program for select organizations to offer their employees, like you, access to affordable tuition, a high-quality online education, and flexibility to study when the time is right for them.

*"I chose Champlain because the curriculum had an established history for success, offering the flexibility I needed to accommodate my hectic schedule, as well as still having the ability to spend important quality time with my growing family. The accelerated format offers a great way to finish your goals faster, while the mobile app, and flexible schedule make earning your degree or certificate a realistic achievement that truly is obtainable."*

*—Shane, BS in Computer & Information Systems*
